Technical Data Sheet

EASY GO

Easy Clean Paint

Preparation of substrate

The surface should be dry and cleaned out of dirt, grease, old loose or flaking materials. The old paints must be sanded and removed. The surface should be smoothed by **INPAST** Acrylic Interior Paste. Smoothed surface should be left to dry for 24 hours.

Application

Dilute with 10 % water and apply in two coats. After surface preparation, **PRIME C 1/7** Concentrated Primer is diluted with water in the ratio of 1/7 (1 cup primer / 7 cups water) and applied as a single layer, left to dry for 24 hours. **EASY GO** Easy Clean Paint is applied on the surface in two layers with a roller or brush.

Packaging

15 L / 2,5 L plastic bucket

Shelf Life

24 months in original, unopened package

Storage

Store in dry area between +5°C and +35°C. Protect from heat, freezing and direct sunlight.

Cleanup Information

Clean tools and equipment with water immediately after use. Dried material can only be removed mechanically.

Cautions / Limitations

-  Do not overcoat with solvent based materials.
-  Do not apply in freezing conditions or during precipitation.
-  Protect applied materials from rain, freezing, foot traffic and continuous high humidity until completely dry.
-  Do not use when air and surface temperatures are below +0°C and above +35°C.
-  Avoid heavy traffic for 24 hours.
-  Allow 4 weeks before washing or cleaning for full cure.
